HPC IN Cybersecurity

2015 Annual Technical Meeting

Venue: Schlumberger

10001 Richmond Ave, Houston, TX 77042

FEATURED SPEAKERS

Addison Snell

CEO, Intersect360 Research

Addison Snell is the CEO of Intersect360 Research and a veteran of the High Performance Computing industry. He launched the company in 2007 as Tabor Research, a division of Tabor Communications, and served as that company's VP/GM until he and his partner, Christopher Willard, Ph.D., acquired Tabor Research in 2009. During his tenure, Addison has established Intersect360 Research as a premier source of market information, analysis, and consulting. He was named one of 2010's "People to Watch" by HPCwire.

Addison was previously an HPC industry analyst for IDC, where he was well-known among industry stakeholders. Prior to IDC, he gained recognition as a marketing leader and spokesperson for SGI's supercomputing products and strategy. Addison holds a master's degree from the Kellogg School of Management at Northwestern University and a bachelor's degree from the University of Pennsylvania.

Angela Haun

Special Agent / InfraGard Coordinator FBI Houston Division

Special Agent Angela Haun entered on duty with the Federal Bureau of Investigation in March 1998. Her first office assignment was the Chicago Division, where she investigated public corruption and, subsequently, international terrorism matters. Agent Haun was promoted to Supervisory Special Agent in the Office of Congressional Affairs at FBI Headquarters in November 2005. In March 2010, Agent Haun earned a promotion in the Cyber Division at FBI Headquarters as the Unit Chief of the Public/Private Alliance Unit. Agent Haun oversaw the FBI's national effort to engage private industry, academia and other government agencies on cyber matters. In February 2011, Agent Haun transferred to the Houston Division, where she investigated health care fraud crimes, until she was selected to be the Houston Division's InfraGard Coordinator in October2012. Agent Haun has received numerous awards for her work at the FBI, including the FBI Director's Award for Outstanding Criminal Investigation and the U.S. Attorneys Director's Award.

FEATURED SPEAKERS (cont.)

Dr. Shawana P. Johnson, GISP, President, Global Marketing Insights, Inc.

Dr. Johnson, GISP (Certified Geographic Information System Professional) is a globally recognized geospatial intelligence expert supporting the US government and the global geospatially focused security and intelligence industries with market research on technology platforms and capabilities which support airborne and spaceborne geospatial tools utilized specifically in Energy, Agriculture, Water Resources, Maritime Security and Land Asset and Resource Planning.

At Global Marketing Insights Inc., she serves as President to an international client base where her area of expertise includes providing Geospatial Business Intelligence ExpertiseTM in Cloud and Data Interoperability. She received her Doctorate in Management Degree from Case Western Reserve University, Weatherhead School of Management, Cleveland, OH.

James McFarland Lawrence Distinguished Chair in Finance, Tulane University Executive Director, Tulane Energy Institute Board of Directors at Newpark Resources, Inc. James W. McFarland is the Rolanette and Berdon Lawrence Distinguished Chair in Finance and the Freeman School Distinguished Chair in Business in the A.B. Freeman School of Business at Tulane University. He serves as the executive director of the Tulane Energy Institute. Dr. McFarland has served on boards and as a consultant to non-profit, private, and public organizations. His primary research and teaching areas are econometrics, energy and resource economics, international finance, strategy, and supply chain management.

Marcus Sachs, Senior Vice President and Chief Security Officer, North American Electric Reliability Corporation (NAERC).

Sachs is responsible for the oversight of the Electricity Information Sharing and Analysis Center (E-ISAC), and for directing security risk assessment and mitigation initiatives to protect critical electricity infrastructure across North America. He is a retired US Army officer, was a White House appointee in the George W. Bush administration, is the former director of the SANS Internet Storm Center, and previous to NERC was Verizon's Vice President for National Security Policy. He hold degrees in Civil Engineering, Science and Technology Commercialization, Computer Science, and is "All But Dissertation" on a Ph.D. in Public Policy

Schedule

0730	Sign-in & Breakfast
0830	Welcome Remarks
	Safety Moment by Magdy Ishak, Schlumberger Geo-Collaboration Manager
	Welcome by Gary Crouse, SHPCP Executive Director
0845	Keynote: HPC Update from SC15
	Addison Snell, CEO, Intersect 360
0930	BREAK
1000	Panel One - Topic: How are HPC Resources used in Cybersecurity
	Moderator: Earl Dodd, SHPCP, President
	Panelists
	Dr. Shawana Johnson, GISP, President Global Marketing Insights, Inc.
	James McFarland, Executive Director Tulane Energy Institute
	Sean Fitzgerald, Sr. Vice President of Technology and Services X-ISS
1100	Lunch
1215	Keynote: The Cyberthreats Landscape
	Angela Haun, Special Agent and FBI Houston InfraGard Coordinator
1300	Break
1330	Marcus H. Sachs, P.E, Sr. VP and CSO, NERC
1430	Break
1445	Panel 3 - Topic: Vendors and Luminaries Crossfire
	Moderator: Addison Snell, CEO Intersect 360
1530	Break
1535	Special Announcement
	Kevin Corbley, Marketing Director SHPCP
1545	Close and Adjourn
	Earl J. Dodd, President SHPCP

An Alliance for National Infrastructure Protection

What is INFRAGARD?

INFRAGARD is a trusted partnership between the FBI, other government agencies, academia and the private sector to foster collaboration and information sharing that enhances our ability to address threats, in order to prevent and mitigate attacks on the Nation's critical infrastructure and key resources.

The Houston InfraGard Members Alliance has more than 1600 active members and ten Special Interest Groups (SIGs):

- Oil & Gas
- Technology
- Financial Services
- Retail
- Healthcare

- Public Safety
- Legal
- Maritime
- Power & Utilities
- Bryan/College Station

Membership:

Membership is FREE

Requirements:

- 18 Years of Age or Older
- U.S. Citizen
- Pass Periodic Criminal
 Background Checks
- Adhere to Code of Ethics and Information Sharing Policies

Apply Online at https://www.infragard.org

INFRAGARD Resources & Benefits:

- Access to the IG Network Secure Web Portal
- Timely Intelligence Alerts and Analytic Products
- Training and Education
- Access to iGUARDIAN to Submit Cyber Incidents to the FBI
- Access to Malware Investigator to Submit Malware Samples
- Informative Programs and Networking Opportunites:
 - ★ Chapter & SIG Meetings
 - **★** Security Conferences
 - ★ Technology Workshops
 - **★** VIP Tours
 - ★ FBI Special Events
 - ★ Engagement with Other Professional Associations

InfraGard

Partnership is our key resource

The Federal Bureau of Investigation's (FBI) priority programs share the common goal of protecting the nation's critical infrastructures and key resources against threats and attacks. In support of their mission, Bureau teams including Cyber, Counterterrorism, Counterintelligence, and others rely not only on seamless collaboration and dialogue within government, but also with private sector and academic partners. This exchange of expertise, strategy, and actionable intelligence with the FBI and among partners is pivotal to mitigating cyber threats and dismantling criminal activity and terrorism, and is at the core of InfraGard's mission.

Thousands of members, one mission: securing infrastructure

The FBI's InfraGard Members Alliance is an information sharing and analysis effort combining the knowledge base, and serving the interests of, a wide range of private sector partners who own, operate, and hold key positions within some 85 percent of the nation's critical infrastructure. With thousands of members nationally, InfraGard's subject matter experts include business executives, entrepreneurs, military and government officials, computer professionals, academia, and state and local law enforcement; each dedicated to advancing national security.

While the FBI gains an improved understanding of the threatscape and a rich source of intelligence provided by the InfraGard organization, members are extended access to a host of information and assets that enable them to play a key role in securing infrastructure. In addition, members who utilize program benefits are better equipped to protect their investments by identifying, prioritizing, and mitigating vulnerabilities, developing incident response plans, and enacting the most current security best practices.

InfraGard Member Benefits

Access to InfraGard's Secure Web Portal: www.infragard.org

- Comprehensive suite of sensitive but unclassified FBI, Department of Homeland Security (DHS), and other federal, state and local threat intelligence products and daily news feeds
- · Access to iGuardian, the FBI's cyber incident reporting tool designed specifically for the private sector
- FBI accredited website with 24/7 help desk and secure messaging promotes communication among members

Timely Intelligence Briefings and Analytic Products

- FBI and DHS threat advisories, intelligence bulletins, analytical reports, and vulnerability assessments in real time
- FBI and other government agency presentations to InfraGard chapters at member events

Unique Networking Opportunities

- Special Interest Groups (SIGs)
- Peer-to-peer collaboration across InfraGard's broad membership
- Information sharing and relationship building with FBI and law enforcement at all levels

Training and Education

- Free or discounted local seminars and conferences
- · Security awareness training programs from FBI, DHS, and others
- Training discounts from SANS Institute, The Center for Information Security Awareness, and others

Membership Requirements

- U.S. citizen, 18 years or older
- Consent to an FBI security risk assessment and periodic re-certifications
- Notify the FBI of any pending criminal matters
- Sign and adhere to a Confidentiality and Non-disclosure Agreement
- Agree to adhere to InfraGard
 Code of Ethics
